Dear Mr Shetelig.

I am circulating the enclosed leaflet <sup>(A)</sup> in hundreds to all likely to subscribe. Can you tell me how I can obtain ~~a~~ lists of names & addresses of members of archaeological <sup>historical</sup> societies in Norway? In this country I have obtained lists (when they are available) by sending the enclosed <sup>(B)</sup> letter, which can also be sent to Secs of Societies in Norway. The rate of return, though low, is fairly constant, & it is

merely a question of time before one can get 100 or even  
1000 new subscribers, as I am covering most of the world  
outside the Iron Curtain — & have several subscribers within  
it!

Yours sincerely

O. G. S. Crawford
